

# My Blood Pressure Log

Name: \_\_\_\_\_

My Blood Pressure Goal: \_\_\_\_\_ mm Hg

**Instructions:**

- Measure your blood pressure twice a day—morning and late afternoon—at about the same times every day.
- For best results, sit comfortably with both feet on the floor for at least two minutes before taking a measurement.
- When you measure your blood pressure, rest your arm on a table so the blood pressure cuff is at about the same height as your heart.
- Record your blood pressure on this sheet and show it to your doctor at every visit.
- For elevated BP readings and symptoms, go to your nearest urgent care.
- For BP readings of greater than 180/120 go to your nearest Emergency Room.
